

TASKI

The **ULTIMATE**
Cleaning Machines™

Retail

TASKI machine solutions for the retail sector, giving you improved customer experience and cost control.

Customer Experience

You work hard to create a clean & safe shopping experience for your customers. You know how a clean and hygienic establishment is valued by your customers. First impressions count, make a change and mechanise your floor cleaning, it will transform the appearance of your floors. Your customers will really notice the difference which will keep them coming back and make them stay loyal to your brand.

Operational Efficiency

TASKI machines will increase your operational efficiency through our innovation, superior productivity and fleet management tools. At TASKI we have a reputation for excelling in both cleaning results and productivity. Designs such as self-adjusting squeegee and easy to clean yellow maintenance points all add up to more available cleaning time. Our designers and engineers challenge convention, they optimise and innovate to achieve the ULTIMATE in cleaning excellence.

Cost Control

TASKI machines are designed to quickly pay for themselves, as we know total cost of ownership is more important to you than simple purchase price. TASKI Solutions make your money work harder, reduce total cost of ownership and deliver great ROI. For complete peace of mind opt for one of our combined finance and service packages for fixed monthly costs from 1 to 5 years. Protect your assets with TASKI Service for reduced downtime, longer working life and improved residual value. Our comprehensive 25 x service checks will ensure your machine fleet is always fit for purpose, ready and safe for use.

People & Safety

We know you have a duty of care to protect your team and customers by improving hygiene, air quality and floor safety. At TASKI we pay great attention to ensure our machines are ergonomically designed for the user. Folding and fully adjustable handles or steering wheels mean user comfort is assured. An intuitive dashboard with common icons means little training is needed. All our dry vacuums are available with HEPA filters for superior air quality. We are known for our patented squeegees. Having the best water pick up means less stops, less re-cleans but most importantly, less risk of slip or falls for your customers.

Sustainability

As a responsible business, you will have sustainability goals and your stakeholders may also have expectations. Sustainability doesn't only mean Green, at TASKI it's Orange. Sustainability is at the heart of everything we do. It comes naturally to us in TASKI. We have technologies which reduce utilities by up to 76% to meet your business' sustainability goals. Our scrubber driers reduce energy, water and chemical consumption as well as reducing waste. These are savings we can help you share with your stakeholders.

Signature products created with you in mind.

Our customers drive our business, its part of our success. TASKI products are constructed with the highest quality components and are designed to last.

Innovate and improve your operational efficiency and bottom line. Manage your fleet remotely, do more with your time.

IntelliPower

The power of lithium battery technology

- Latest lithium batteries for TASKI scrubber driers
- 30% reduction in total cost of machine and battery
- 3x faster charging
- 4x longer battery life

IntelliTrail

Optimise your fleet

- Complete asset visibility
- Maximise ROI
- Maximise up time
- Save up to 15% of the asset value in labour

IntelliTrail Analytics

Your virtual fleet manager

- Predictive analytics
- Automates fleet improvement suggestions
- Quantifying opportunities to save labour and investment costs
- Save up to 20% of your machine operating cost

Unlock the potential of automated floor cleaning.
Take your productivity to a new level while redeploying your labour for higher priority tasks.

ECOBOT 50 Pro

Autonomous scrubbing & drying robot

ECOBOT 40

Autonomous sweeping & vacuuming robot

PHANTAS

Autonomous scrubbing, vacuuming, sweeping & mopping robot

- State-of-the-art autonomous cleaning robot
- Up to 1,800 m²/hr scrub and drying for perfect cleaning of hard floors
- Sensor array for superior navigation
- Cutting-edge technology such as LiDAR, cameras, and state-of-the-art sensors to guarantee safety
- Full autonomy enabled by work & docking station for a peace of mind operation
- Improved total cost of cleaning by reducing labour
- Water recycling system for improved sustainability

- State-of-the-art autonomous cleaning robot
- Combines vacuuming, sweeping and dust-mopping in one unit
- Up to 1,200 m²/hr autonomous cleaning for both carpets and hard floors
- Powerful suction performance for perfect dust and debris collection
- Completely hands-free operation for improved total cost of cleaning
- Cutting-edge technology such as LiDAR, cameras, and state-of-the-art sensors to guarantee safety

- State-of-the-art autonomous cleaning robot
- Combines scrubbing, vacuuming, sweeping and dust-mopping in one unit
- Unique size makes it perfect for daily cleaning in small/congested areas
- Scrubs up to 200m² on a single tank / 33cm working width
- 8 L dust bag / 41cm working width
- Up to 10hr/12hr running time in mopping/sweeping mode
- Best-in-class navigation

Make a step change in floor cleaning productivity. Why walk when you can ride?

swingo 2100micro

Micro ride-on scrubber drier

swingo XPR

Stand-on scrubber drier

swingo 4000/5000

large ride-on scrubber driers

- Huge productivity (3025 m²/hr)
- Twin brush for excellent cleaning results
- Large 75L tank for 5000 m² per fill
- Unique retractable offset cleaning function for edge cleaning
- Smaller footprint than larger traditional walk-behind machines

- Huge productivity (4500 m²/hr)
- 75cm working widths with 113L solution and 140L recovery tanks
- Multiple brush and pad options with powerful brush pressure
- Smaller footprint than traditional ride-ons
- Superb water pick up from patented squeegee. Twin pickups.

- Huge productivity (6375/7875 m²/hr)
- All-wheel steering for unbeatable manoeuvrability
- Multiple brush and pad options with powerful 122 kg of brush pressure
- Superb water pick up from patented squeegee. Twin pickups.
- Up to 6.5 hrs run time. Gel or Lithium batteries.

Make a step change in vacuum productivity.

Free up time for tasks that add value to your customers and your bottom line.

AERO 8 FLEXX

Powerful battery tub vacuum

- Latest Li-ion battery and digital motor technologies
- 90 min run time / 60 min recharger time (80%)
- Exceptional suction power
- Ultra silent cleaning experience (52 dB)
- High filtration (HEPA H13 optional)
- Less energy consumption (up to 20%)

AERO BP

Cable and battery backpack vacuums

- Superior efficiency, results and air quality
- Battery options for ultimate agility and productivity
- 1hr run time / 1.5hr recharge time
- Superior airflow and low noise
- High filtration (HEPA option)
- Remote control

AERO UP 30/38

Cable and battery upright vacuums

- Versatile and durable upright vacuums for a wide range of cleaning tasks
- Roller brush technology delivers a powerful mechanical action for a better/deep cleaning
- Battery option for maximum flexibility and versatility
- Unbeaten battery autonomy of up to 1h 20 min for unparalleled productivity
- 3-stage filter system (HEPA included) for superior air quality

AERO 3500micro

Ride-on vacuum- sweeper

- Huge productivity (3500m²/hr)
- Twin brush for excellent cleaning result
- Large vacuum bag for expanded capacity
- Lithium batteries for long run time and reliability
- Extending accessories and hose for operational efficiency

Mechanise your washroom & kitchen floor cleaning for cleaning excellence.

Time to throw away the mop!

swingo 150B

Your first step into mechanised cleaning. An ultra-compact scrubber drier.

- Lightweight and agile
- Height adjustable handle
- 3L tank and 33cm working width
- Removes water and soilage working forward and backwards
- Lithium battery for cable free cleaning
- Scrubs and dries leaving floors spotless and dry

swingo 250micro

Ultra-compact scrubber drier

- Brilliant replacement for mopping
- 44cm working width / 1320m²/hr productivity
- 140RPM twin contra rotating brushes
- Fully adjustable water flow for + 600m²/tank
- 80mins run time / 1hr recharge time
- Enhanced Sustainability - made from a minimum 20% recycled plastic content

swingo 350B

Small scrubber drier

- Roller brush and offset for edge cleaning
- Height-adjustable handle
- 10L tank and 38cm working width
- Removes water and soilage working forward and backwards
- Lithium battery for cable free cleaning
- Scrubs and dries leaving floors spotless and dry

ULTIMAXX 900

Compact scrubber drier

- High productivity up to 1650m²/hr
- 22L tank and 43cm to 55cm working widths
- Lithium battery for cable free cleaning
- Height-adjustable handle for agility and storage
- Scrubs and dries leaving floors spotless and dry
- Rotary or roller brush decks

Improve your customer satisfaction scores and retention rates. Insource periodic tasks for increased revenue or to improve your bottom line. Upskill your team.

ergodisc / vacumat

Specialised machines for all floor care tasks

balimat sweepers

For indoor and outdoor use

aquamat 10/20

Ideal for spot cleaning and upholstery

procarpet 30/45

Large carpet cleaning machines

- Heavy duty rotatory machines
- Cordless multiple speed ergodisc option for ultimate flexibility & freedom
- Powerful lithium battery and super fast charger
- Robust wet vacuums
- Comprehensive accessories for all tasks
- Machines for all floorcare tasks

- Battery powered sweeper range for indoor and outdoor use
- Perfect sweeping result on various floor types
- Patented Tandem roller system
- Easy and simple to use whenever it's needed
- Extended productivity due to extra wide working width

- Extraction for deep cleaning
- Effective combination of extraction and exceptional suction
- Exceptional pay-back and ROI vs outsourcing

- TASKI procarpet machines are 2-in-1
- Unique encapsulation method for intermediate maintenance
- Foam method for fast drying
- Minimal disruption / downtime

Unique products created to combine tasks, increase productivity/efficiency and reduce unproductive time.

Workstation/Charging Station

Automated tasks for greater efficiency

- Workstation available for Ecobot 50 Pro
- Save resources and unproductive time when charging, water filling and discharging the robot. The Workstation takes care of it!
- Charging Station is available for all models
- Auto back to base and auto resume modes

ToolStrap

Onboard tool holders

- Converts scrubber driers to hold signs, sweepers, cloth boxes and spot mops
- Like having a cleaning trolley and scrubber drier combined
- Increases productivity
- Ideal for janitor cleaning

Service Station 300

Fast filling for large scrubber driers

- Greatly reduces unproductive tank refilling time
- 300L super-fast filling (75 sec.)
- Payback typically less than 12 months

TASKI Solutions to make your money work harder, reduce total cost of ownership and deliver great ROI. Protect your assets with TASKI Service for reduced downtime, longer working life and improved residual value.

Finance

Flexible finance and purchase options

- Leasing or rental options
- Fixed-cost billing to include service
- Pool fleet and pay-per-use options
- Pre-used machines (subject to availability)

Service

Service options to suit your needs and budgets

- Protect your assets and minimise downtime
- Extend the life of your assets and increase their residual value
- Our New Service Programs options are designed to match your risk level
- Save up to 30% on repair costs
