

Rust Reclaim

75A1

Oxalic acid powder to reclaim linen with rust stains

Description

Clax Rust Reclaim is an oxalic acid based formula, specially formulated for use in commercial and on premise laundries. The product can be used to reclaim linen with rust stains that have not been removed during the normal laundry process

Key properties

Clax Rust Reclaim is a highly concentrated powder that effectively removes rust along with the build up of iron and other minerals. It is a proven reclaim process that reduces linen replacement cost and improves overall cost efficiency of your laundry process. Clax Rust Reclaim is also required in combination with Clax Renova to reclaim linen with fixed stains from sunscreen oil.

Benefits

- Proven highly effective reclaim process for rust stains
- Eliminates multiple rewash processes
- Keeps linen in service longer
- Whitens and brightens linen containing fixed mineral soils

Use instructions

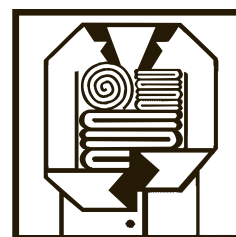

Recommended dosage is 6 g/kg linen. Consult an application specialist from Diversey for further details on the recommended wash process to reclaim linen with rust stains. A complete reclaim program may require other products depending on the type of soil encountered

To reclaim linen with though tea, wine or fruit stains, use Clax Oxy or Clax Peroxy

To reclaim linen with tough particulate soil or fatty stains, use Clax Saturn or Clax Pasta

To reclaim white cotton linen in case of dye transfer, use Clax Sinox

To prevent sunscreen oil stains or to reclaim linen with fixed sunscreen oil stains use Clax Renova

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*
