

TASKI® Jontec No1

F1c

Heavy duty floor stripper - no rinse

Description

Heavy duty stripper for effective removal of floor emulsions and maintenance films from alkali resistant hard floors. Unlike conventional strippers, its revolutionary formulation enables floors to be ready for re-coating without the need to rinse, reducing normal stripping time by up to 50%.

Key properties

- Highly alkaline
- High wetting and emulsifying power
- Fast and easy emulsion removal without rinsing
- No scrubbing necessary at high concentration

Benefits

- Quick and effective removal of floor emulsions from alkali-resistant hard floors such as PVC, vinyl, stone, etc.
- Powerful dissolution of heaviest build up as well as tough soil removal
- Saves up to 50% time compared with conventional strippers
- At high concentrations, simply use mop and bucket, no machine required

Use instructions

1. Dose the product into the full water tank/bucket.
2. Apply the solution and remove the soiled solution.
3. Do not allow to dry.
4. Allow the product to act for 5-10 minutes.
5. Scrub the floor using a single disc equipped with a suitable pad. (When used at high concentration, the product does not require scrubbing)
6. Wet vacuum the soiled solution.
7. Damp mop the floor to remove residues.
8. Allow the floor to dry completely before recoating.

For hard to reach areas, use up to 25% concentration with mop and bucket, leave to act for 10 minutes and remove slurry with wet vacuum cleaner. No scrubbing needed.

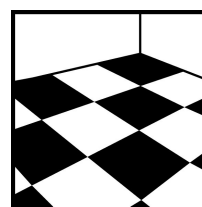

Dosage*

TASKI Jontec No1 needs to be diluted.

Dosage bucket: 12,5% (1,25L / 10L bucket) max 25%.

Proper dosage and temperature save costs and minimize environmental impacts.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*

Technical data

Appearance:	Clear Pale Colorless to Straw Liquid
Odour:	Herbal
pH value (neat):	> 12
pH value (in use):	~ 12
Relative density (g/cm ³ ; 20°C):	≈ 1.04

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet; sds.diversey.com. Store in original closed containers away from extremes of temperature. Only for professional users / specialists.

Product compatibility

Use only cold water. On porous and structured floors, rinse thoroughly. Do not use on alkali sensitive floorings, e.g. linoleum, cork and wood. Do not use on solvent-sensitive floorings, e.g. asphalt. Immediately remove any solution splashes from alkali-sensitive surfaces (e.g. wooden baseboards, painted/varnished surfaces) with a wet cloth. Store in original closed containers away from extremes of temperature. Test material compatibility on a small, inconspicuous place before use.

Environmental Information

The surfactants used in this product are biodegradable in compliance with the requirements of EC Directives 73/404/EEC and 73/405/EEC and their subsequent amendments.
