

CLAX® Tabs

33E1

Detergent - fabric washing tablet - without bleach

Description

Clax Tabs are complete mainwash detergent tablets specially formulated for use in on premise laundries. The product has been developed for precise manual dosing and can be applied at all water hardnesses. Clax Tabs is suitable for washing all coloured goods except for very fine delicates and wool.

Key properties

Clax Tabs contain enzymes and an effective blend of surfactants, water hardness sequestrants, anti-greying and anti-corrosion agents. The well-balanced surfactant blend results in excellent fatty/oily and particulate soil removal and dispersion of soil components. The zeolite based building system ensures low water hardness ion concentration and consequently prevents precipitation of detergent components. In addition other ingredients with anti-redeposition and antiincrustation properties have been included in the product. Clax Tabs have also been formulated with silicates, which function as anticorrosion agents. Presence of an effective enzyme mix system leads to protein degradation, thus facilitating removal of proteinaceous soil such as blood and food stains but also of starchy soils and fatty soils. Clax Tabs are very effective to use as single shot mainwash detergent for cleaning fabric such as restaurant linen and workwear. In addition, Clax Tabs can be used for cleaning linen from hospitals and other health care establishments, and for cleaning hotel linen.

Benefits

- Excellent performance on a wide range of stains and types of soil
- Prevents greying of linen; stabilisation of soil particles in the wash liquor
- Prevents corrosion of machine parts
- Very effective on proteinaceous soil (e.g. blood and food stains)
- Prevents fading of colours on fabric

Use Instructions

For best results:

- use softened water
- segregate polyester cotton articles from other articles and wash separately
- separate white and coloured goods
- sub-sort into light, medium and heavily soiled articles

Dosage*

Use two tablets per washing load. For heavily soiled goods three tablets might be used.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*
