

TASKI®

Jontec Omnistrip

Deep cleaner/stripper for the spray method

Description

Deep cleaner/top stripper for use with single disc machine. In combination with a single disc machine, the product allows deep cleaning and removal of the top layer of the floor polish which has been abused by traffic. Ideal to use within the TASKI Omni system as an easy to implement, deep cleaning and recoat program. Can be used especially on water sensitive floors and / or in areas which cannot be closed to traffic.

Key properties

- Effective removal of damaged layers of floor polish
- Especially formulated for deep cleaning with the spray method
- Versatile application
- Dries very quickly

Benefits

- Efficiently top strips the surface of all coated surfaces in combination with suitable pad
- Easy to implement, removes even tenacious layers of soil and maintenance product residue
- Ideal for deep cleaning with the TASKI Omni system but can also be used with any other machine speeds
- Permits thorough cleaning without restricting area of use

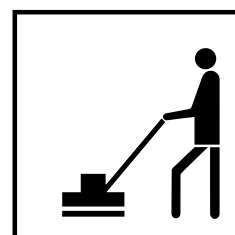

Use instructions

Spray cleaning:

1. Fill the prepared solution into the hand sprayer or single disc machine's spray device
2. Spray the solution sparingly onto the floor to avoid splashing and scrub with a blue pad
3. If the pad begins to smear, turn the pad over or use a clean pad
4. Repeat as necessary until desired result is reached
5. Apply additional layers of floor finish or spray buff for uniform appearance with suitable product and pad

Dosage:

Ready to use, no dilution required.
