

Divermite

Overview

The Divermite system is a revolutionary off the floor concentrate dispenser for a range of Hard Surface Cleaning products in 1.5kg pouches. Ease of use, accurate control of dosing, efficient utilisation of storage space and reduced packaging waste are all customer benefits which are designed into the system.

Divermite Plus

Is an over the sink version for dosing manual dishwashing detergent, it is fitted with an extended spout to reach from the dispenser to the target sink.

Divermite S

This version is used for dosing into 750ml Suma and 300ml RoomCare refillable bottles. It can also be used to dose manually into a bucket using the supplied ladle and with optional optional bucket adaptor.
