

QuattroSelect - Pouch Version

Overview

The QuattroSelect wall mounted captive dispenser features one handed trigger bottle filling, making low flow filling simple and easy. The dispenser also features a remote filling gun with a hose that permits high flow bucket/auto-scrubber filling, allowing filling control at the gun.

The innovative dispenser is equipped with the SmartValve selector making dilution control easier and faster. Simply turn the SmartValve selector to the desired product and begin filling.

- Dispenses four products at the push of a button
- Includes labels with icons for easier product identification
- Dispensing system will dispense accurate cleaning with dilution tips supplied for any configuration
- Use pouch concentrates with no measuring, mixing or mess
- Fill buckets, auto-scrubbers or bottles from a central location accurately and efficiently
- Easy product change-out
