TASKI®

Mini Closed for Jonmaster

The revolution in professional cleaning

The hub for pre-wetted cleaning is the TASKI Mini Closed trolley. The trolley is fitted with everything the operator needs. Cloths, mops and equipment can be positioned on the trolley where they are easiest to handle.

Pre-Wetted Jonmaster Cleaning System

Is a complete cleaning system combining the TASKI Open and Closed trolleys with a range of unique microfibre products and associated tools. The Jonmaster cleaning method guarantees optimal operational efficiency and superior, hygienic results!

Key advantages

- Modularity
- Flexibility
- Durability
- Peace of mind

Benefits

- Cost-efficiency
- Increased productivity
- Easy maintenance
- Perfect for every industry

The sustainable solution!

Introducing our sustainable trolley featuring sustainable components: mop holders, boxes, buckets, drawers and cover frames are made of 98% recycled polypropylene. Additionally, the box handles are 50% recycled polypropylene and 50% fiberglass. Each component has a visible date stamp moulded into it for full traceability.

Benefits

- Environmental sustainability and circularity
- Full traceability of material
- Reduced carbon footprint
- Positive brand image for customers
- High durability, ensuring long service life

TASKI®

Mini Closed for Jonmaster

Key advantages

The TASKI trolley system offers complete modularity, flexibility and highest durability for all cleaning methods.

The intuitive design allows to move components and accessories to a variety of different positions and to adapt them to specific work habits and processes. Many features make the trolley easier and faster to use, help to increase productivity and flexibility.

Features

- Modularity: 3 basic platforms unlimited configuration options
- Ergonomics: Highly adjustable push bar, easy manouverable
- Safety: Non marking wheels, 2 with a brake
- Robustness: High quality material; special coated metal frame with aluminium profile
- Hygienic: Impregnated, anti-microbial grips to avoid cross contamination; complete trolley is autoclavable
- Productivity: A mop box pops out of the side of the cart so a fresh mop can be applied with a minimum of effort
- Sustainability: Mop holders, boxes, buckets, drawers and cover frames are made of 98% recycled polypropylene; box handles are 50% recycled polypropylene and 50% fiberglass
- Each component has a visible date stamp moulded into it for full traceability
- Unique locking system: With one touch the system can be locked down to secure the entire trolley

The compact TASKI Mini Closed Trolley is most suitable for the cleaning of small and medium-sized areas.
